Road & Airport Maintenance - General Data Sheet

PeelJet® nozzle head

TrackJet® nozzle head

Traversing module

Exemplar photos

Road & Airport Application

- ▶ Rubber and Paint removal
- ▶ Apron cleaning / Stand cleaning
- ▶ Airfield ground lighting cleaning
- ▶ Friction improvement
- ▶ Grip improvement on Asphalt and Concrete
- ▶ Removal of Road marking (Paint, TP, CP, Spray)
- ▶ Oil spill removal
- ▶ Zebra crossing removal

Main Components

- ▶ Universal Diesel Power Pack 2520 SWD-254-52 l/min sound insulated
- ▶ Traversing module Basic Type 2520 SW
- ▶ PeelJet® nozzle head
- ▶ TrackJet® nozzle head
- ▶ For example Carrier vehicle Mercedes Arocs
- ▶ Installation and truck upgrade
- ▶ Creep Drive Set
- ▶ 5.000 l fresh water / 5.000 l waste water
- ▶ Computerized speed / pressure synchronization
- ▶ Starter kit wear parts/tools

Options

- ▶ Video Track control system
- ▶ Hand over, maintenance and operation training
- ▶ Hot climate package
- ▶ Spare part package
- ▶ Wear part packages 250h

Road & Airport Maintenance - General Data Sheet

General Technical Data

Max. working width for linear removal approx.	~ 350	mm
Max. paint removal to distance till obstacles laterally	~ 30	mm
Max. paint removal left and right of the trucks wheel track	~ 1.000	mm
Max. working width lateral removal	~ 2.300	mm
Max. working pressure	2.500 36.000	bar psi
Max. water consumption	32 ~ 1,920	l/min m ³ /h
Fuel consumption	~ 50	l/h
Fresh water tank	5.000	l
Waste water tank	5.000	l
Solid chamber	~ 2,0	m ³
Continuous operation period	~ 2,5	h
Min. ambient temperature	+ 2	°C
Net weight	15	to
Measurements all in m (l/w/h) indication	~ 10 x 2,5 x 3,95	
High pressure pump performance	170	kW

Technical modifications reserved.
