

# peelJET + TRACKJET Unimog

## Road & Airport Maintenance - General Data Sheet

### Road & Airport Application

- ▶ Rubber and Paint removal
- ▶ Apron cleaning / Stand cleaning
- ▶ Airfield ground lighting cleaning
- ▶ Friction improvement
- ▶ Grip improvement on Asphalt and Concrete
- ▶ Removal of Road marking (Paint, TP, CP, Spray)
- ▶ Oil spill removal
- ▶ Zebra crossing removal

### Main Components

- ▶ Unimog Power Pack; HPP124; Twintank 3.500 l
- ▶ PeelJet®\_U/TrackJet®\_U nozzle head
- ▶ Installation & Unimog upgrade PeelJet®\_U/TrackJet®\_U
- ▶ Computerized speed/pressure synchronisation
- ▶ Hand over, maintenance and operation training
- ▶ Starter kits wear parts/tools

### Options

- ▶ Video Track control system
- ▶ Unimog U500 U400 or U427 (EU)
- ▶ Tool set Basic PeelJet®\_U/TrackJet®\_U
- ▶ Spare part package PeelJet®\_U/TrackJet®\_U
- ▶ Wear part packages PeelJet®\_U/TrackJet®\_U 250h
- ▶ PeelJet® nozzle head

### General Technical Data

Max. working width for lateral removal approx.	2.300	mm
Max. working width for linear removal approx.	~ 350	mm
Minimum curb stone distance	~ 30	mm
High pressure pump performance	120	kW
Max. working pressure	2.500 36.000	bar psi
Max. water consumption	24 ~ 1.5	l/min m <sup>3</sup> /h
Fresh water housing	3.500	l
Waste water housing	3.500	l
Solid waste compartment	1	m <sup>3</sup>
Continuous operation period	~ 2	h
Min. ambient temperature	+ 2	°C
Net weight	~ 5,5	to
Measurements all in m ( l/w/h ) indication	~ 6,7 x 2,4 x 3,1
